|  Effortless migration
Secure, low-risk transition of your data, customers and payment workflows |  Flexible fee configuration
Choose to absorb or pass on payment fees based on your business model |

Collect more payments

Pre-debit email and SMS notifications remind customers before payments are due, reducing failed transactions.

Ezypay's PayNow page enables instant payment recovery, while network tokenisation ensures secure, uninterrupted billing. Ezypay's real-time data and actionable insights give businesses the visibility they need to optimise performance and stay ahead.

Built for complex business models

Ezypay is built to support advanced business models. We offer cross-border settlement for franchise brands and software providers, along with multi-split payout capabilities to meet complex reconciliation needs.

Meet the Ezypay ecosystem

Ezypay partners with leading software providers to deliver seamless subscription payment solutions for SaaS providers and their customers.
